The Medical College of Virginia

Health Sciences Division
of
Virginia Commonwealth University

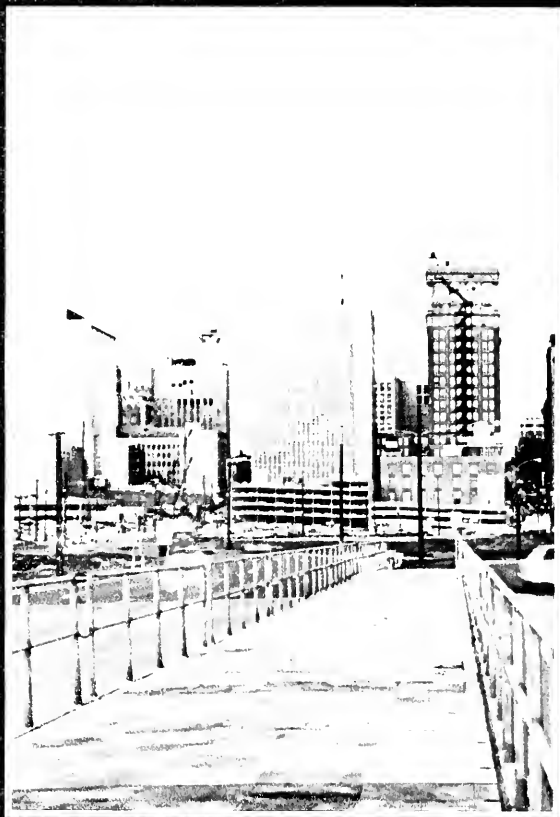

Richmond, Virginia

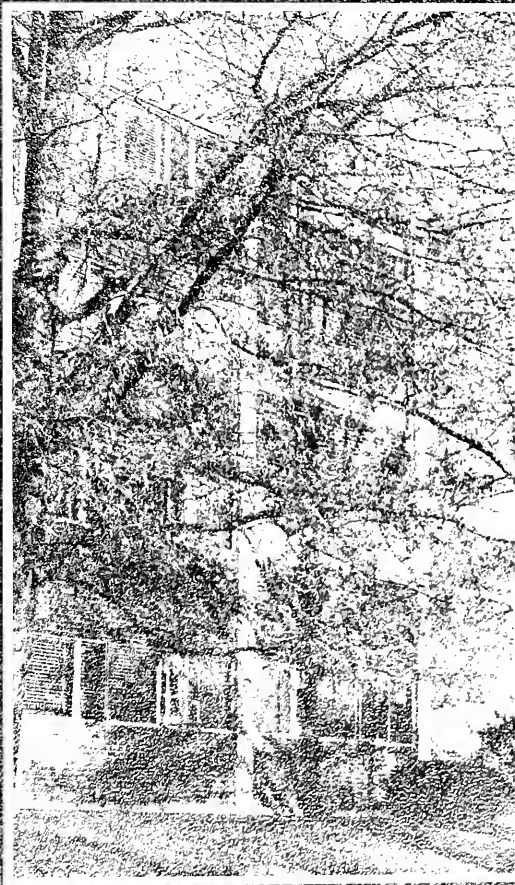

Volume LXI

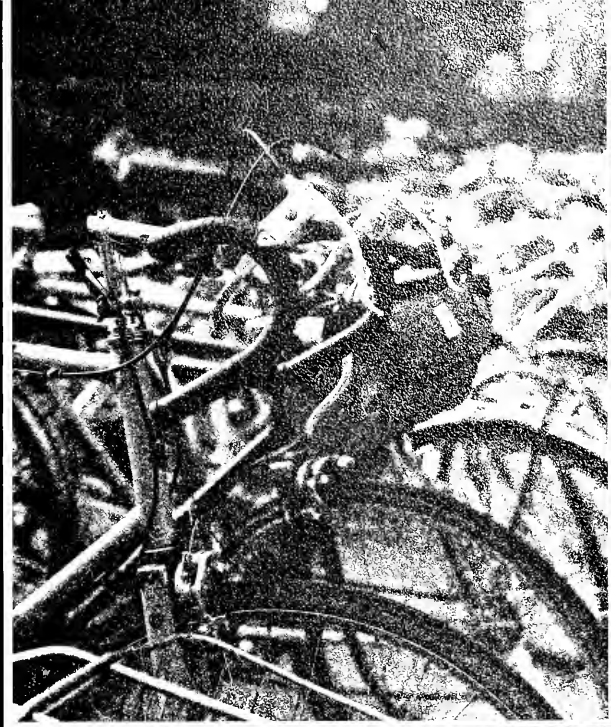

... these were the best of times in education, and these were the worst of times—the worst because of the many complex problems that new conditions had generated, but the best because these same new conditions offered the hope of a great future. Major modifications in social and educational institutions generally are accomplished, like childbirth, only with risk and pain.

Mario Procaccino

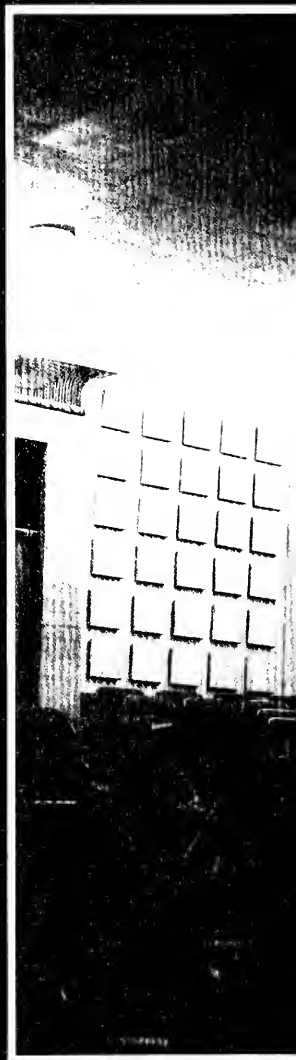

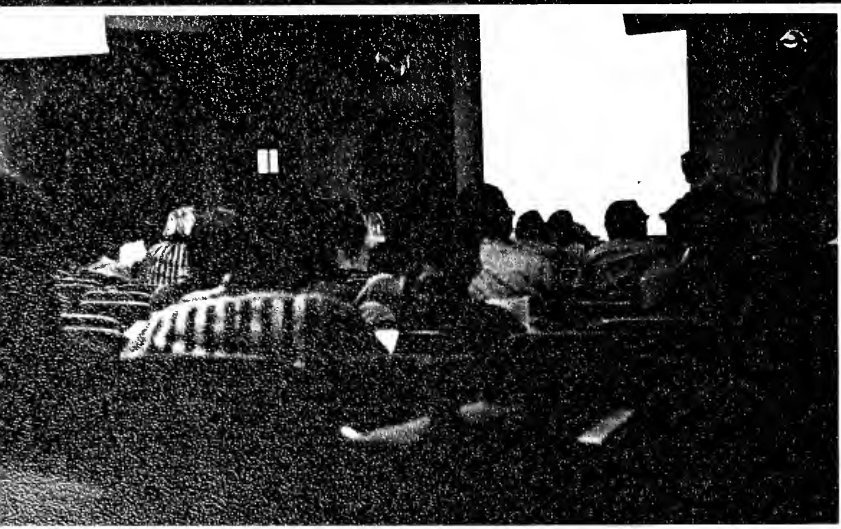

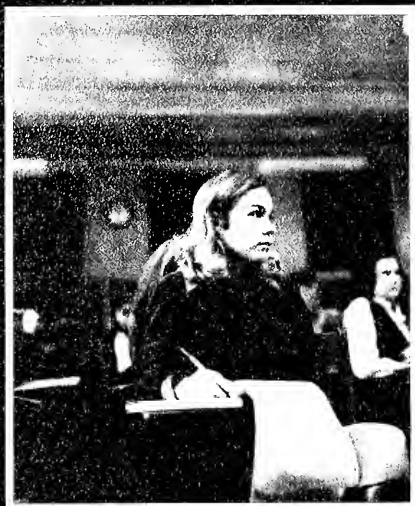

*The warmth of the sun on my
skin*

*Its healing rays in my sineus,
With sheer animal joy I spin,
My communion with nature
continues.*

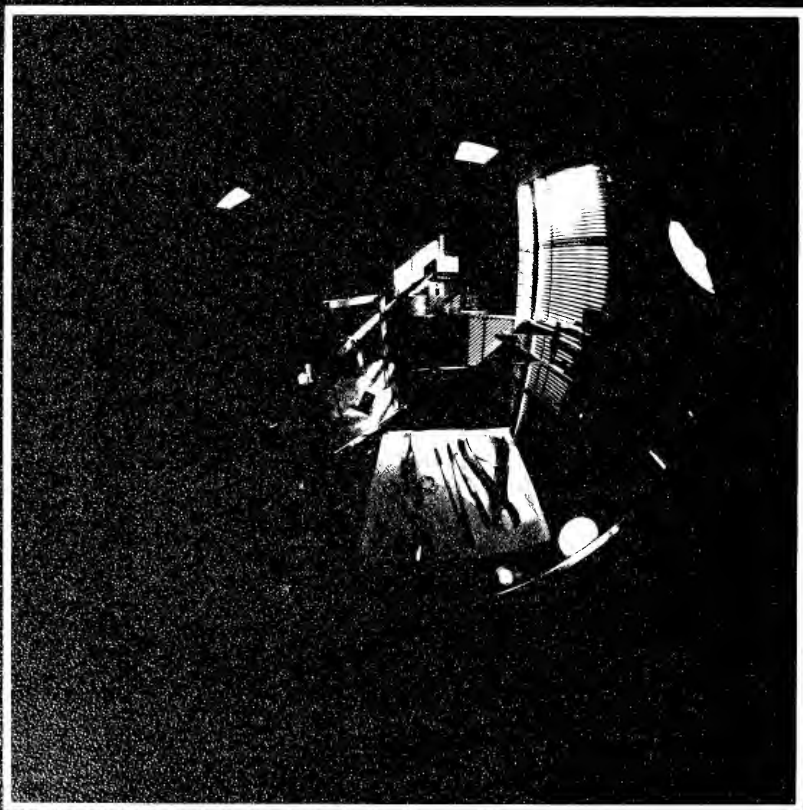

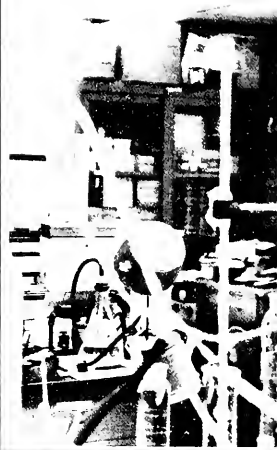

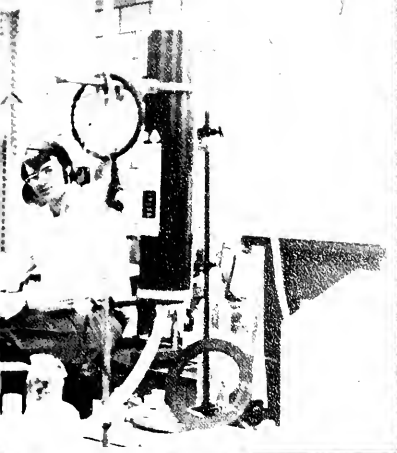

*Knowledge: The amassed thought and
experience of innumerable minds.*

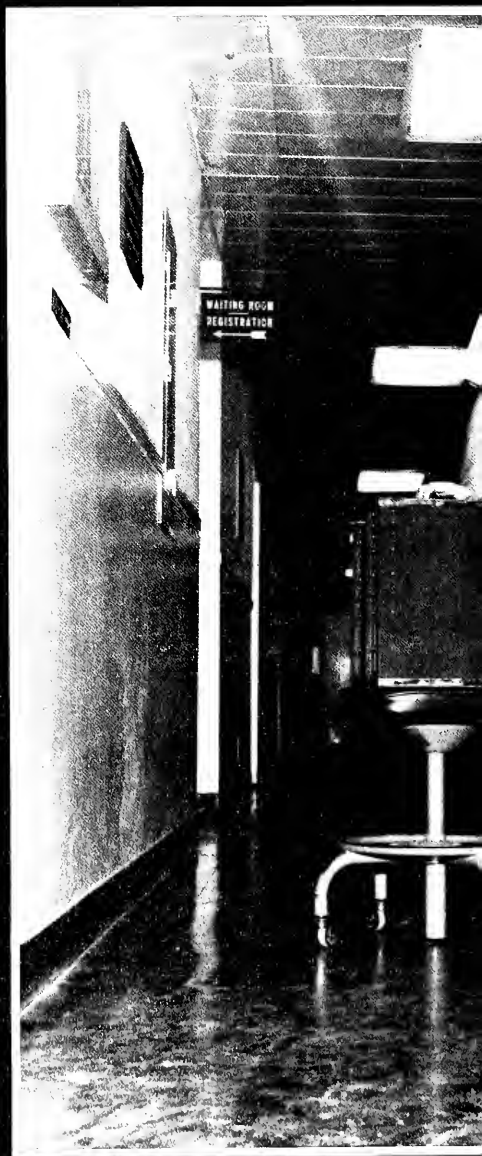

Ralph Waldo Emerson

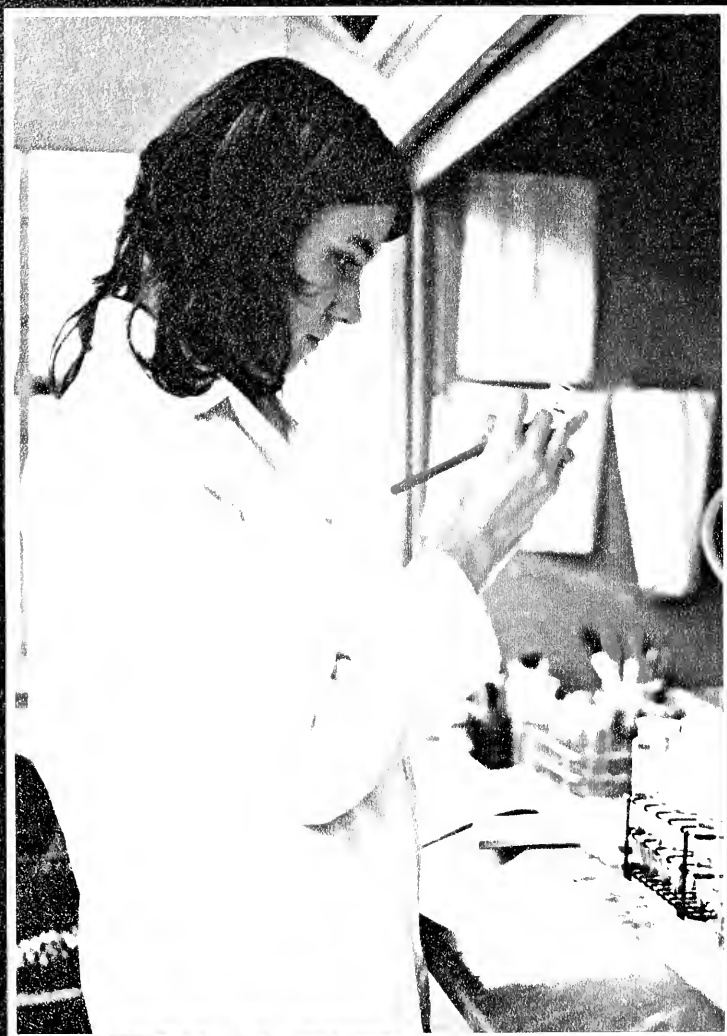

Amid the conglomeration of data, statistics, cultures, microscopes, chemicals, perseverance . . . we may find the answer.

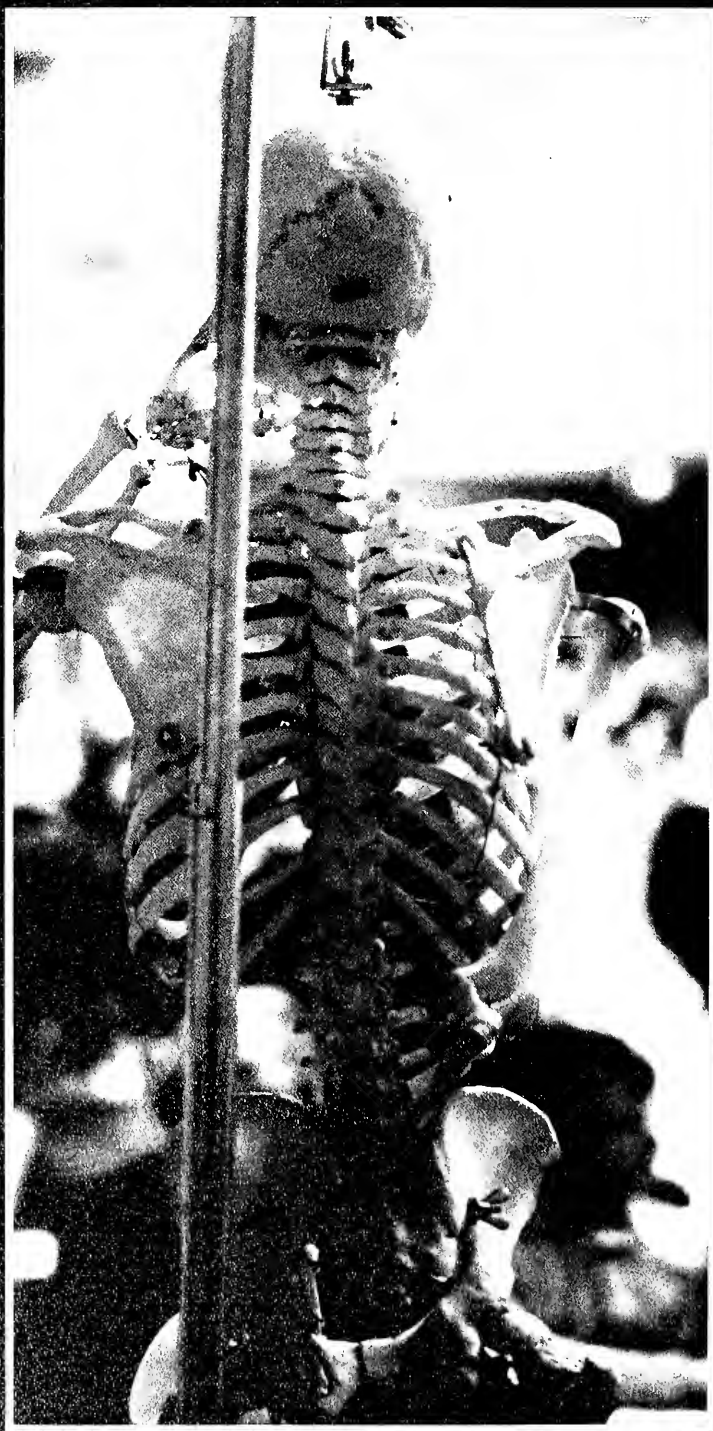

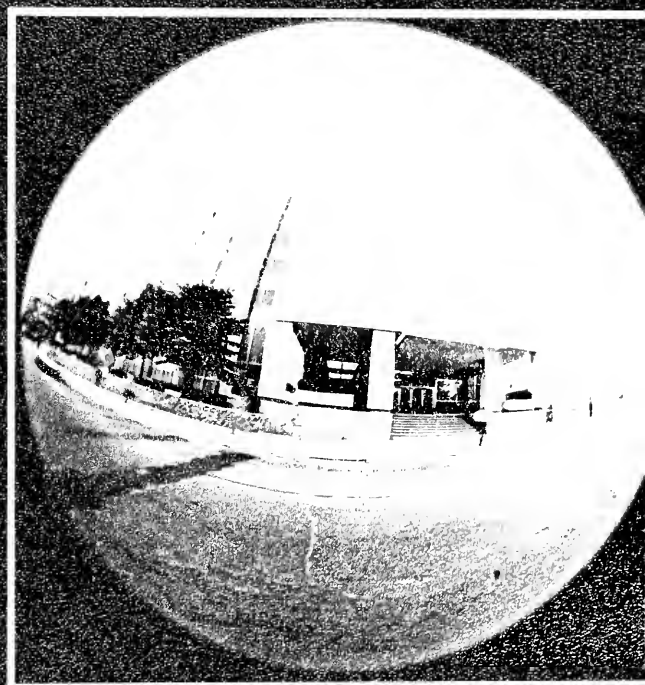

*Like hungry guests,
a sitting audience
looks.*

George Fauguhar

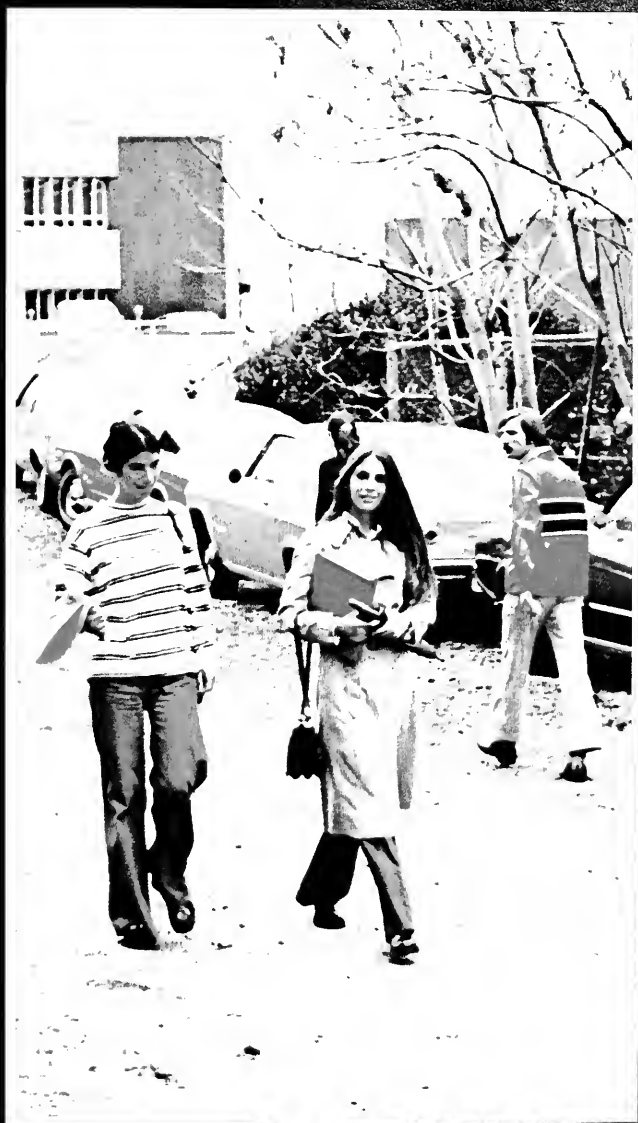

Happiness is knowing you've made it through one more day.

Charles M. Schulz

SCHOOLS

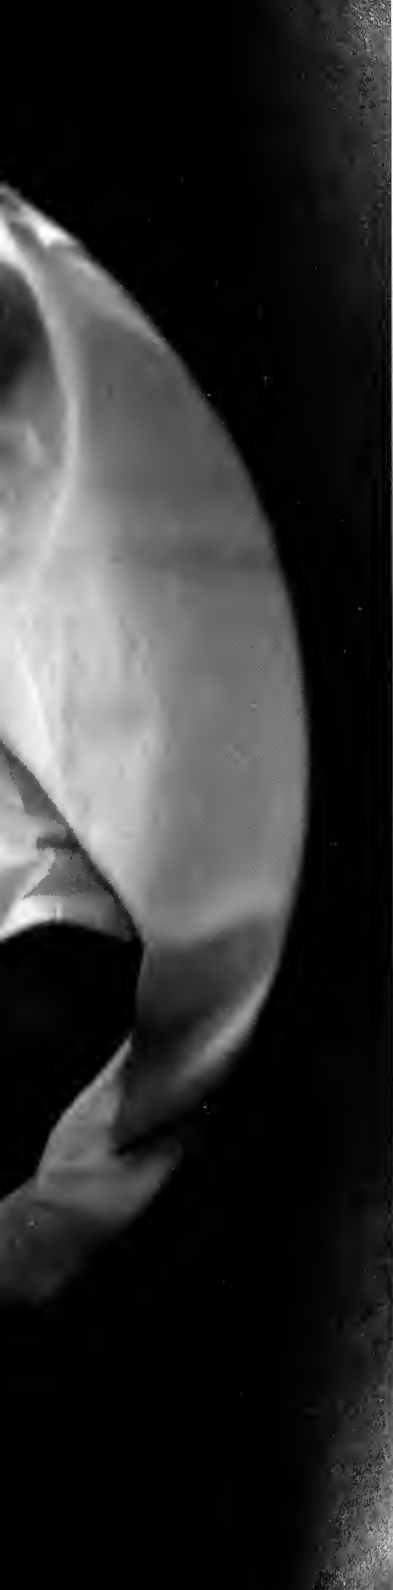

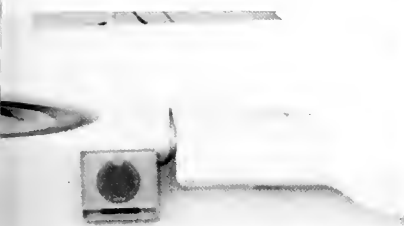

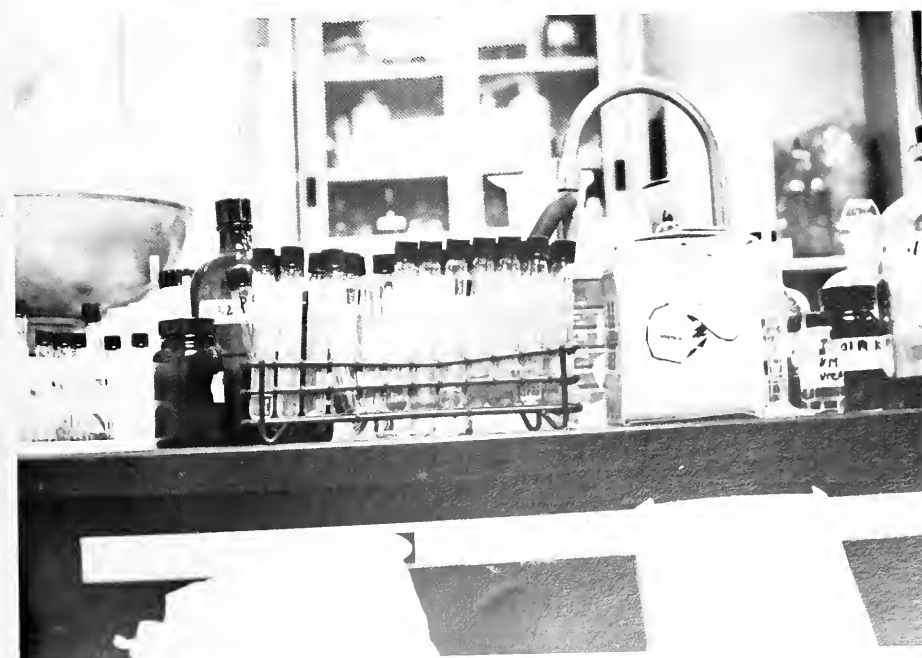

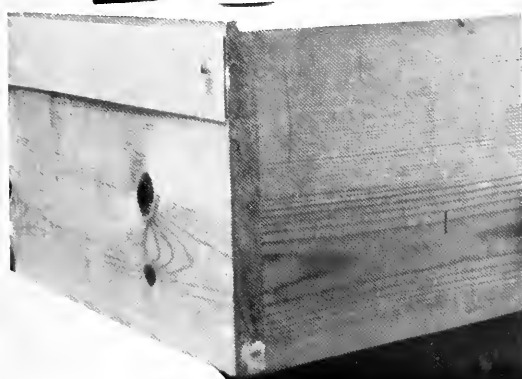

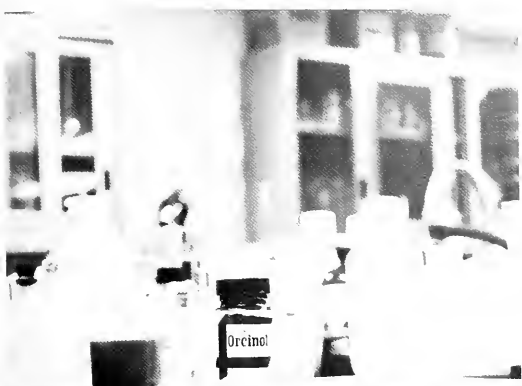

"... a gentleman and a scholar."

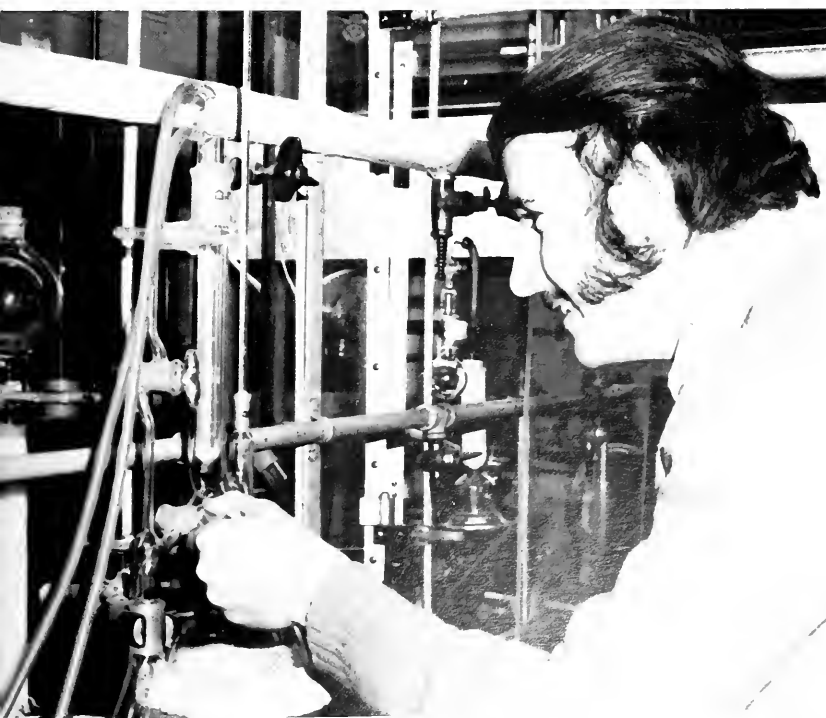

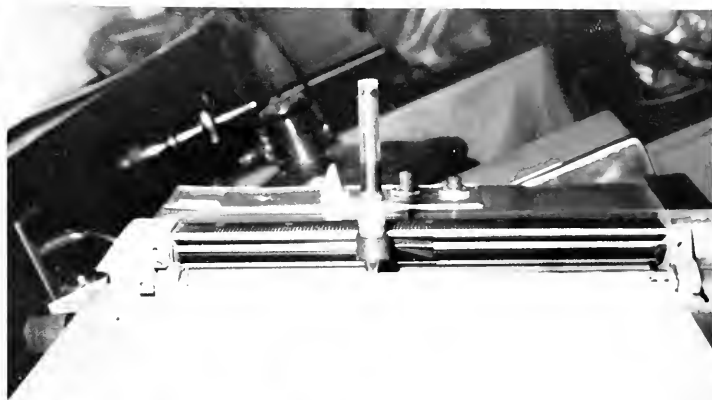

"Eat your heart out U.C.L.A."

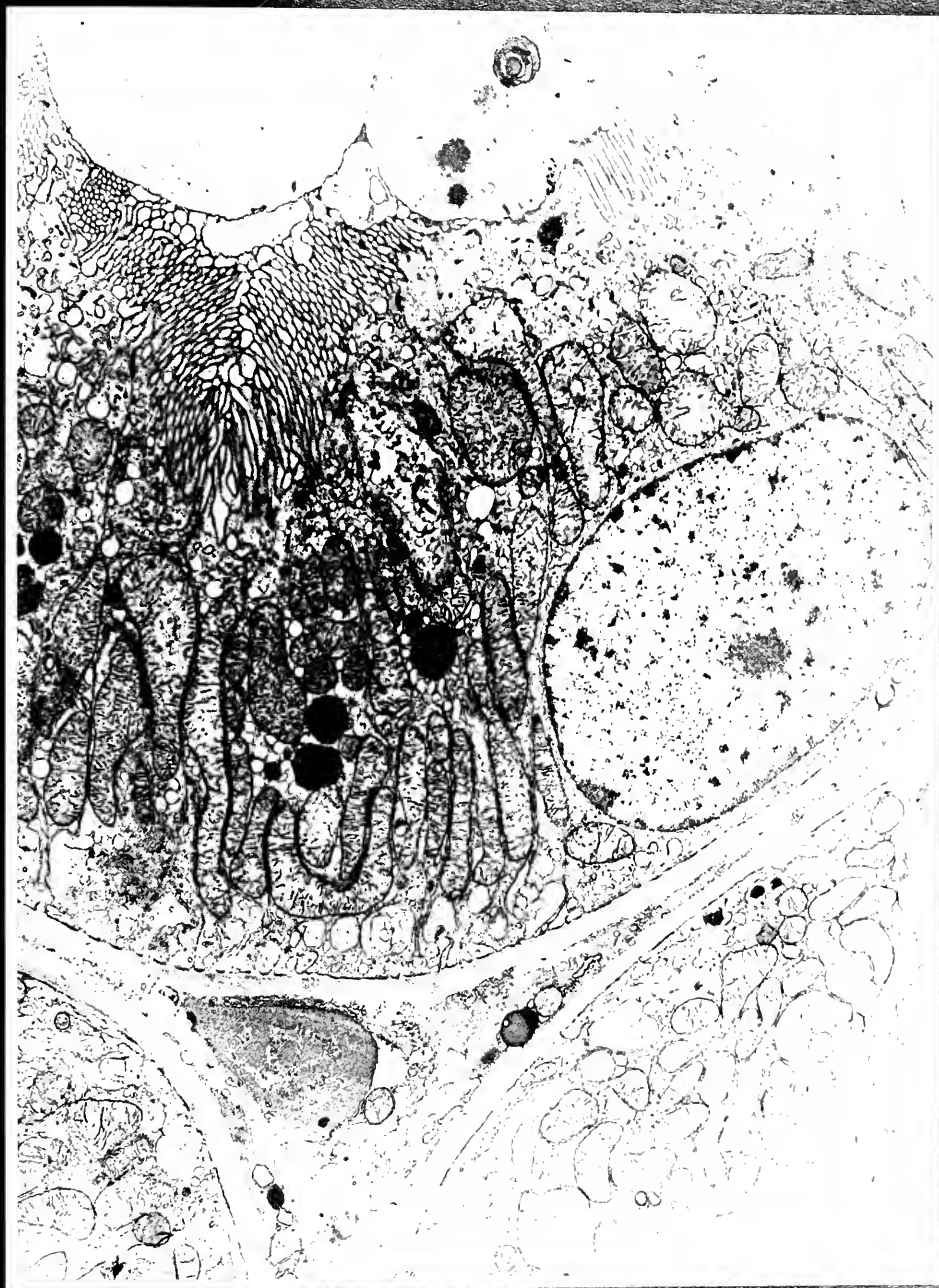

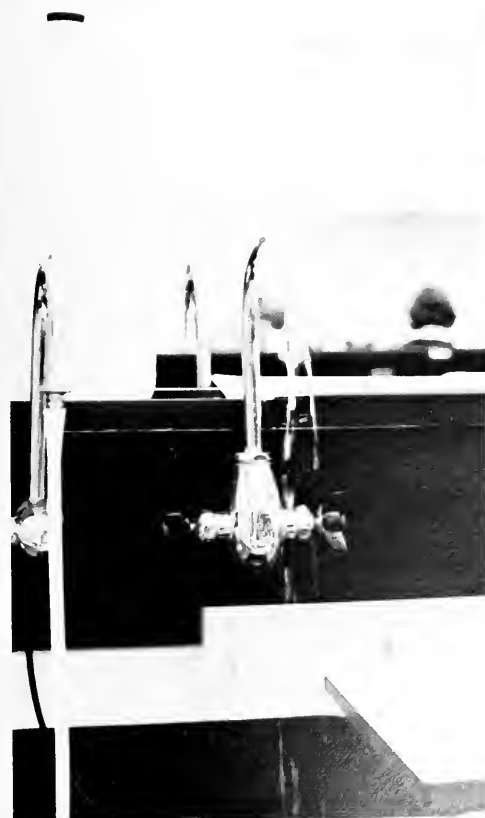

abnormal plasma cell

kidney tubule

Deep in the human unconscious
is a pervasive need for a
logical universe that makes
sense. But the real universe
is always one step beyond logic.

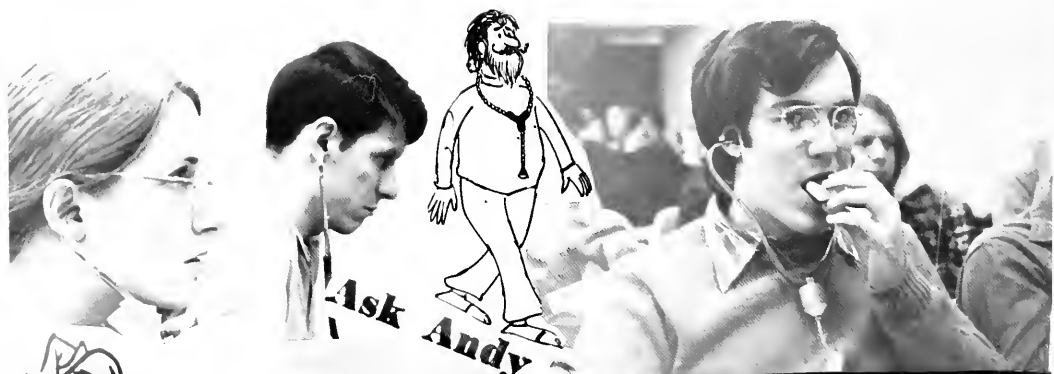

Knowledge is the small part of ignorance that we arrange and classify.
Ambrose Bierce

Ask Andy.

What Exactly
Is a Stethoscope?

ER

Gravida
nine
Para one
A seven

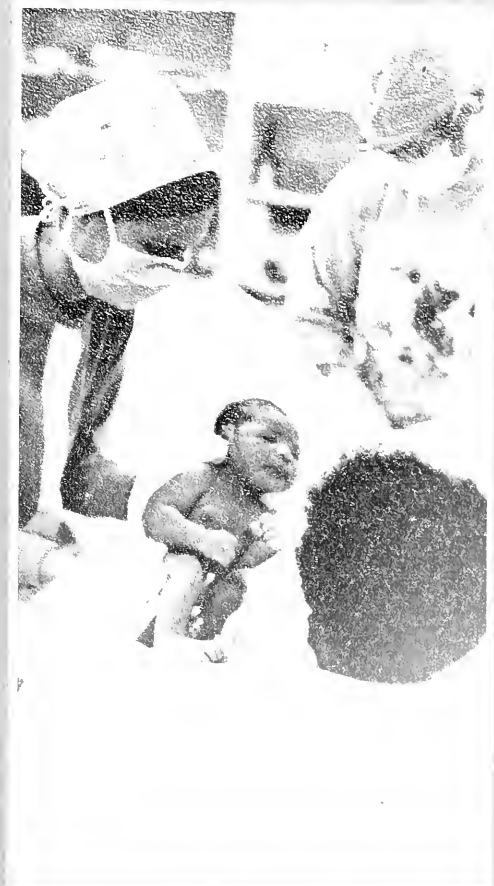

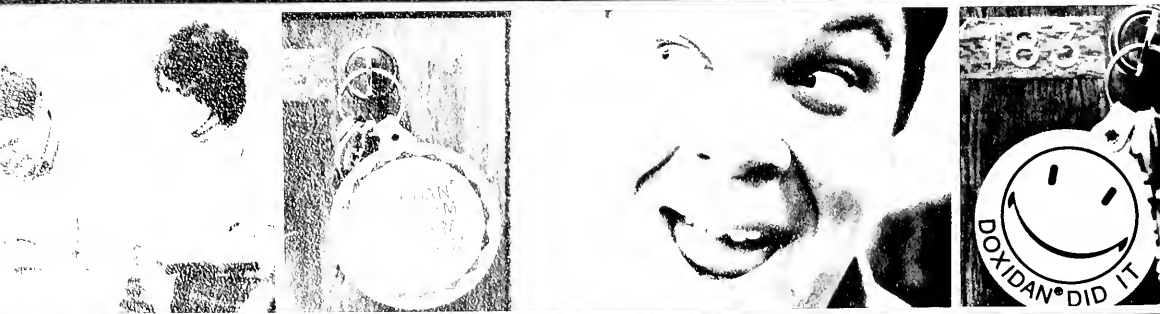

Tom Reams M' 75

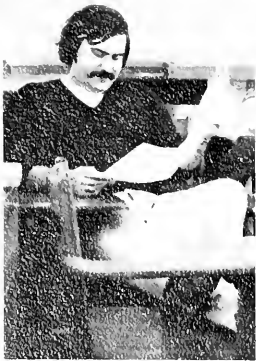

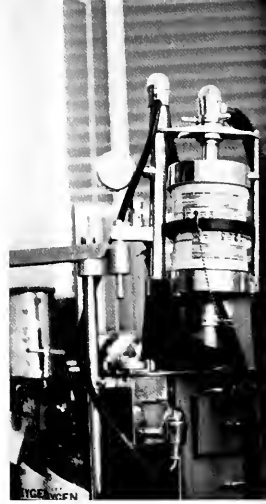

8 pound-7 ounce boy

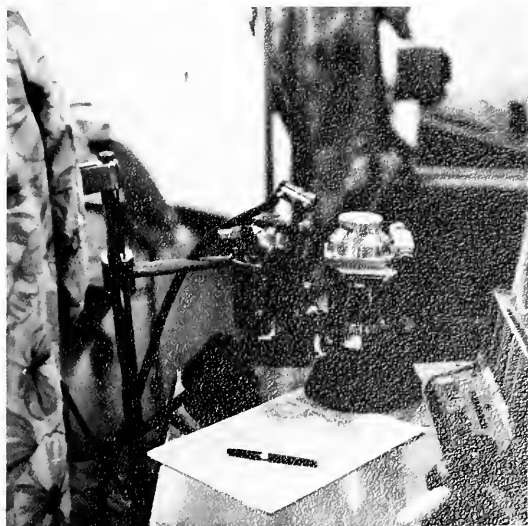

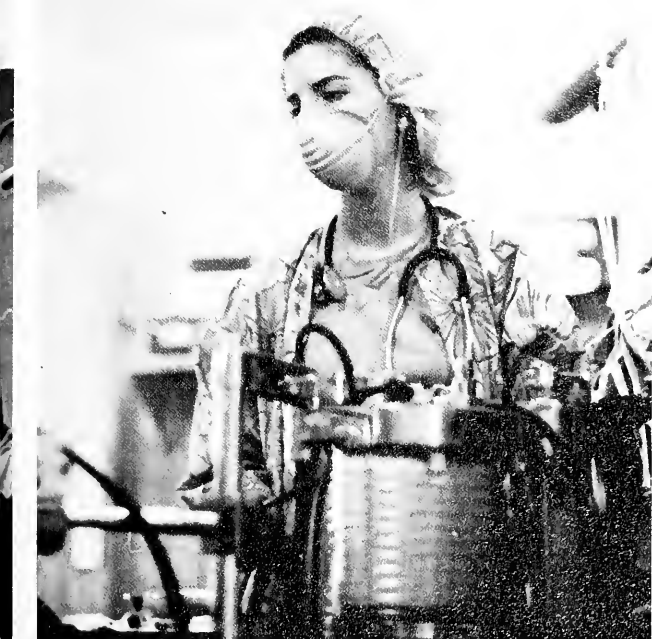

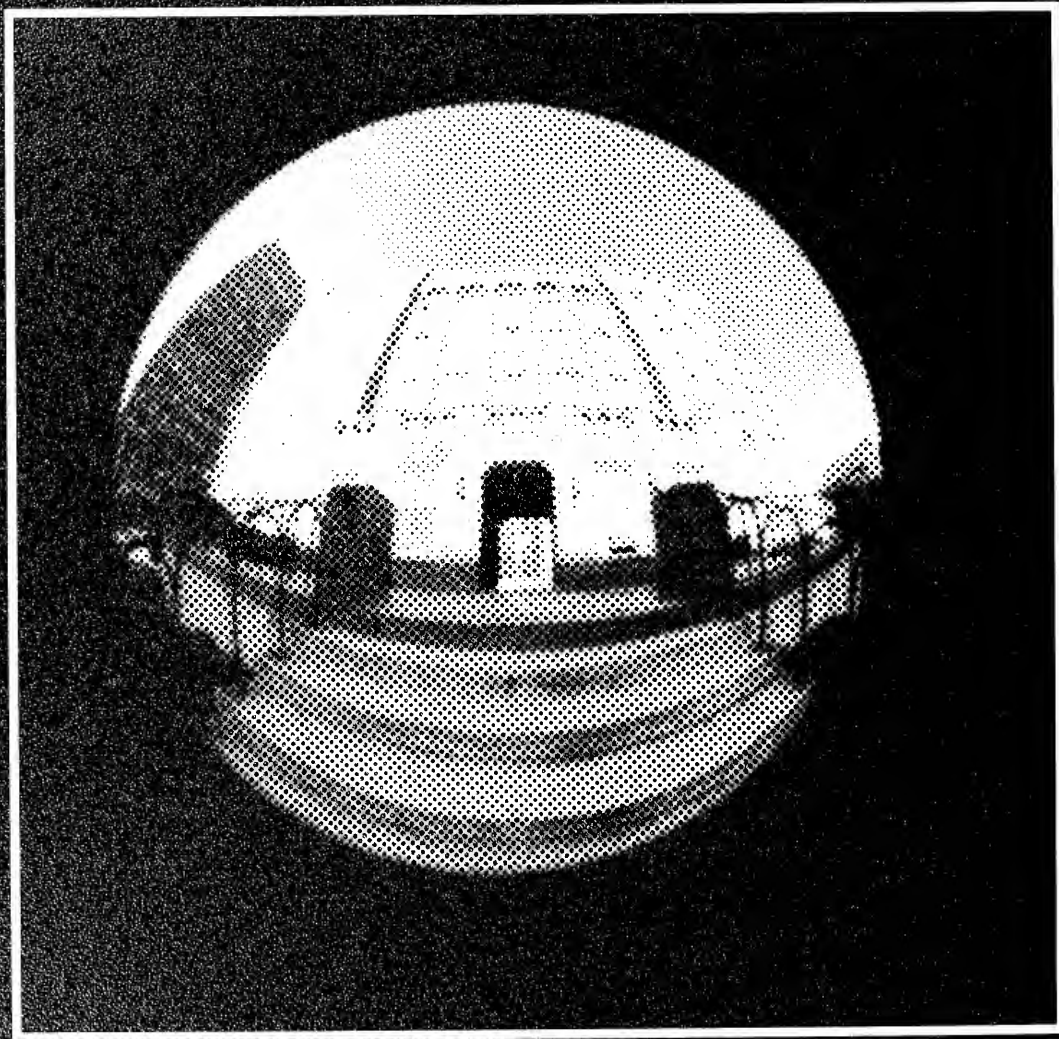

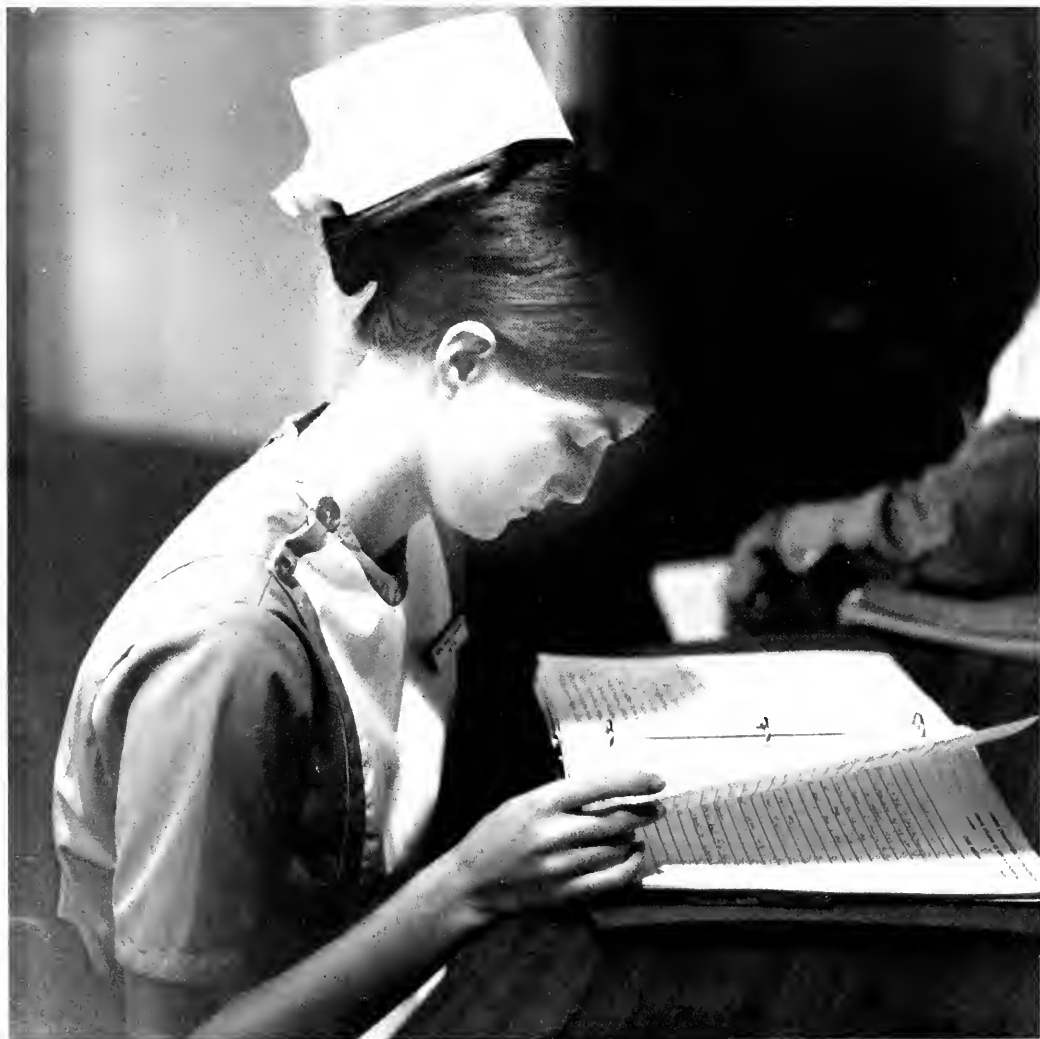

. . . so this year for the Health Science I lab we decided to dis-
pense with the dog experiment and instead . . .

In order to live creatively
and meaningfully,
our self-concern must be wedded to other concern.
Martin Luther King

Hark the student nurses shout—six more days til we get out.
 Six more days til we can tell—all our proffs to go to hell.
 No more studying and no more thinking,
 Back to sex and social drinking.
 Hark the student nurses shout—six more days til we get out.

We understand what you're going through.
We'll do all we can to help you.

. . . There is a call to life a little sterner,
 And braver for the earner, learner, yearner.
 Less criticism of the field and court
 And more preoccupation with the sport.

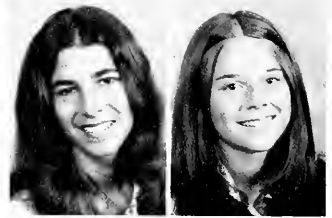

Robert Frost
 For John F. Kennedy
 His Inauguration

Hey! How's about clearing these stupid basketball players off the football field.

It's not my fault! The guy at the stall next to me got turned around.

Somebody must've put Polygrip in the mustard jar.

No it must've been the ones with the yellow faces that don't sting.

But . . . but . . . but . . . He's got dog breath!

The first human pleasure center electrode implant recipient. He has now exceeded the world's rat record of 8,743 consecutive lever pushes—and shows no signs of fatigue.

Wow! 472 actually looks sexy with his clothes on!

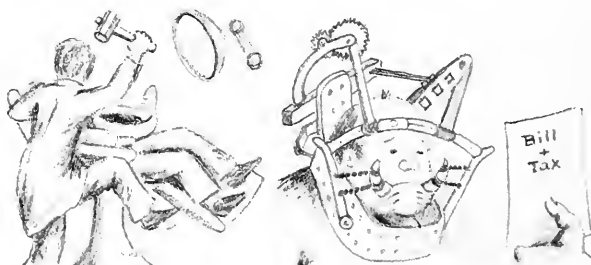

The Guru says only 140 more hours of meditation and I'll reach the universal truth.

What do you mean this is a biopsy specimen? I thought Fred just brought it up from the Skull!

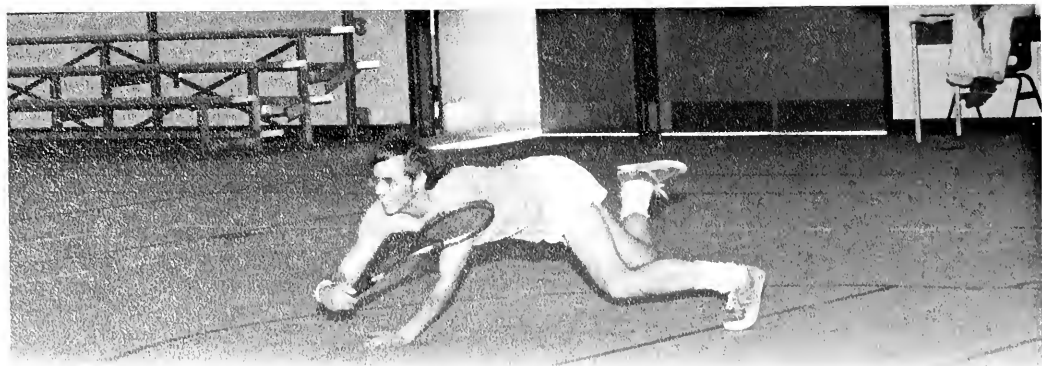

I'm afraid they'll have to be corrected . . . otherwise they might grow into your brain and kill you.

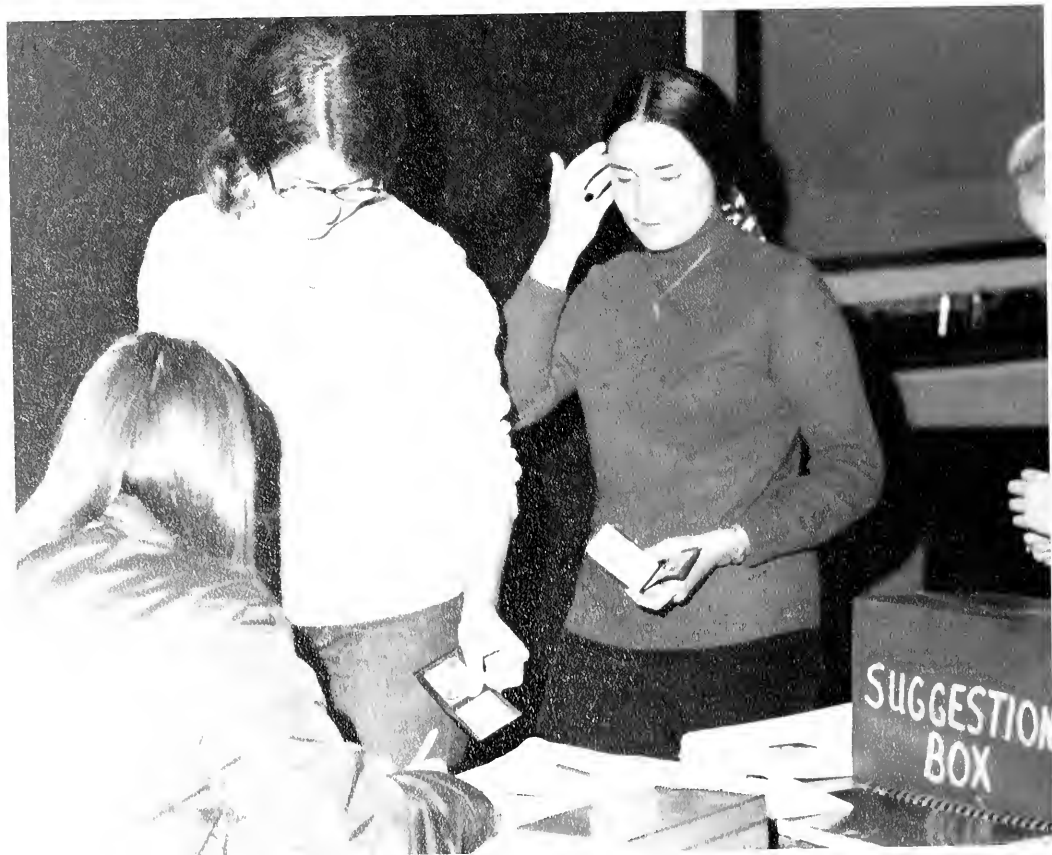

There—now you'll only starve to death.

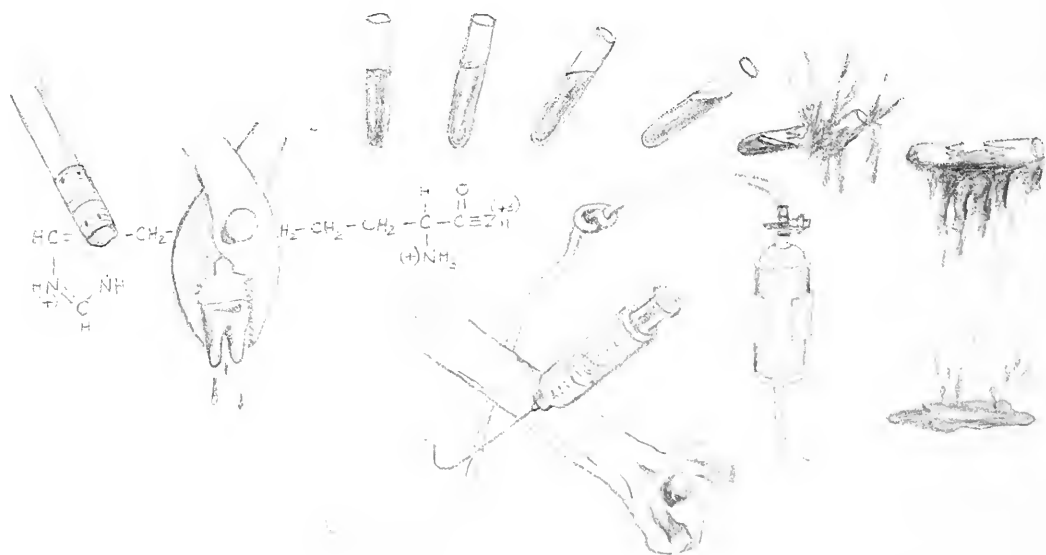

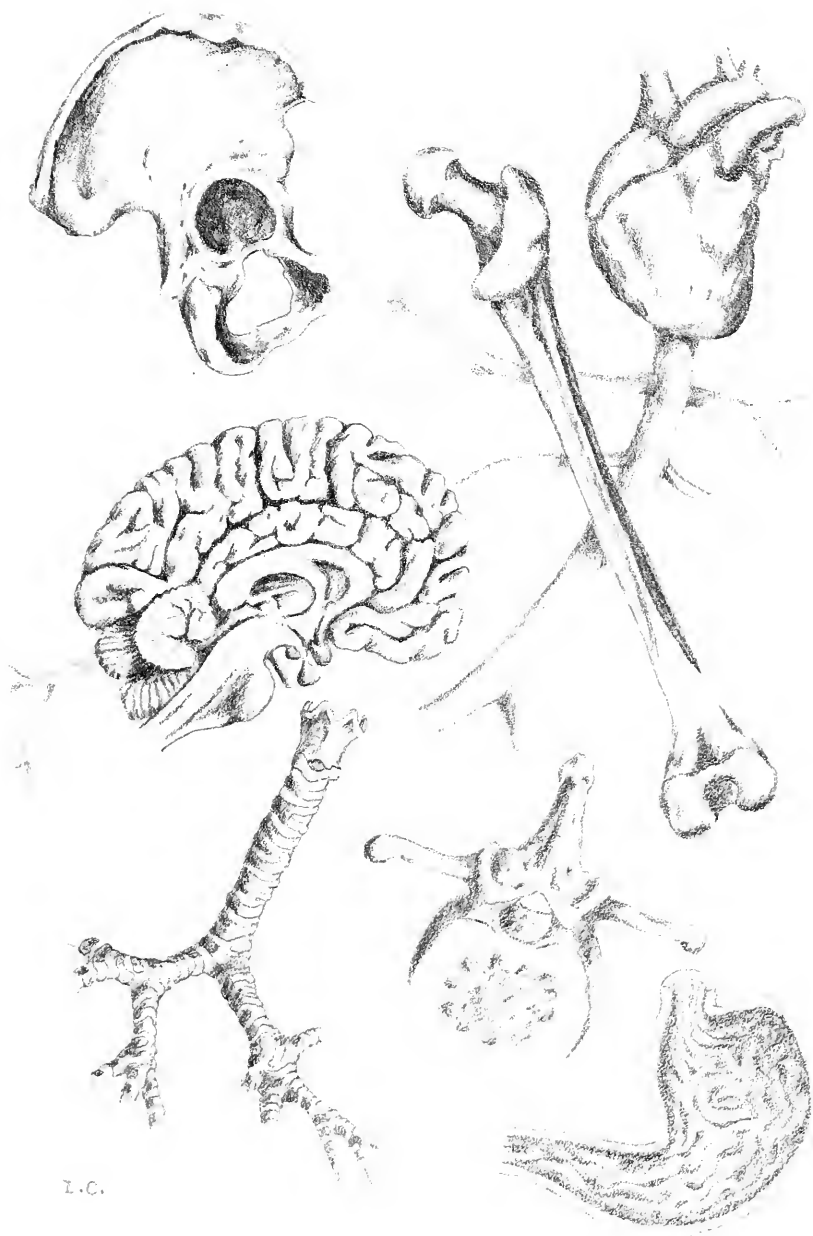

I dip a piece of bread . . .
and put it in my mouth;
Suddenly, there they are!

All my childhood summers.
lone Hill

MURPHY'S LAWS

- In any field of scientific endeavor, anything that can go wrong, will go wrong.
- Left to themselves, things always go from bad to worse,
- If there is a possibility of several things going wrong, the one that will go wrong, is the one that will do the most damage.
- Nature always sides with the hidden flaw.
- Mother nature is a bitch.
- If everything seems to be going well, you have obviously overlooked something.

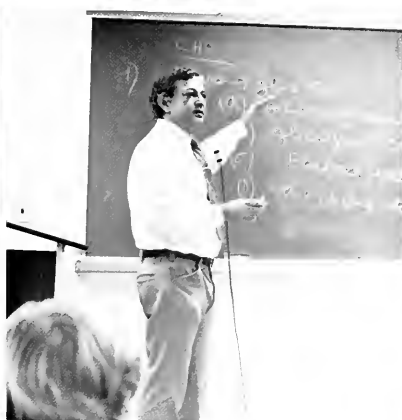

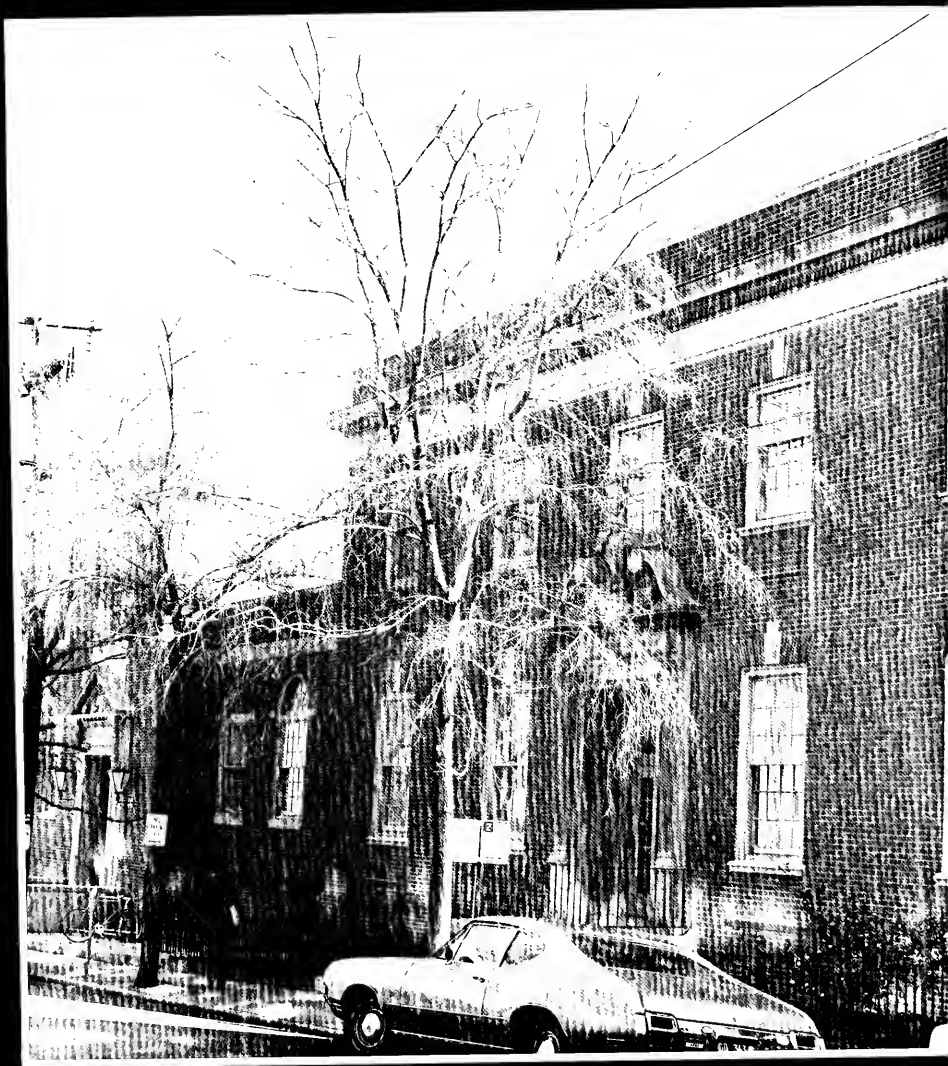

To hope means to be ready
at every moment
for that which is not yet born,
and yet not become desperate . . .
those whose hope is strong
see and cherish all signs of new life
and are ready every moment
to help the birth
of that which is ready to be born
Erich Fromm

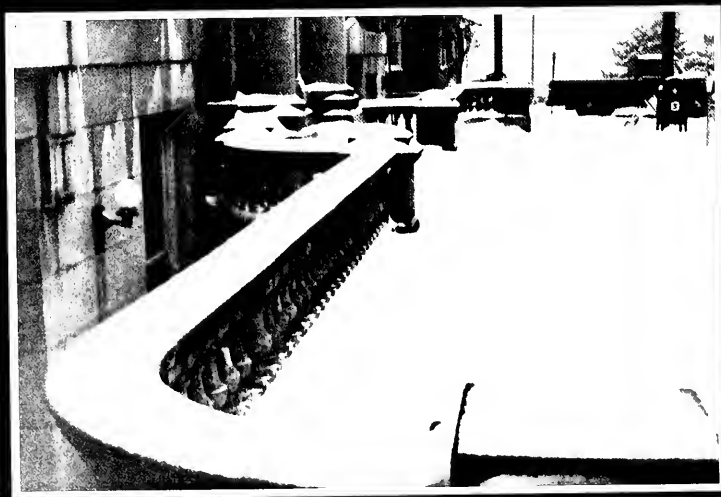

Life is no brief candle to me
It is a sort of splendid torch
Which I have got hold of for the
moment,
And I want to make it burn as
brightly
as possible before handing it on
to future generations.

George Bernard Shaw

IN MEMORIAM

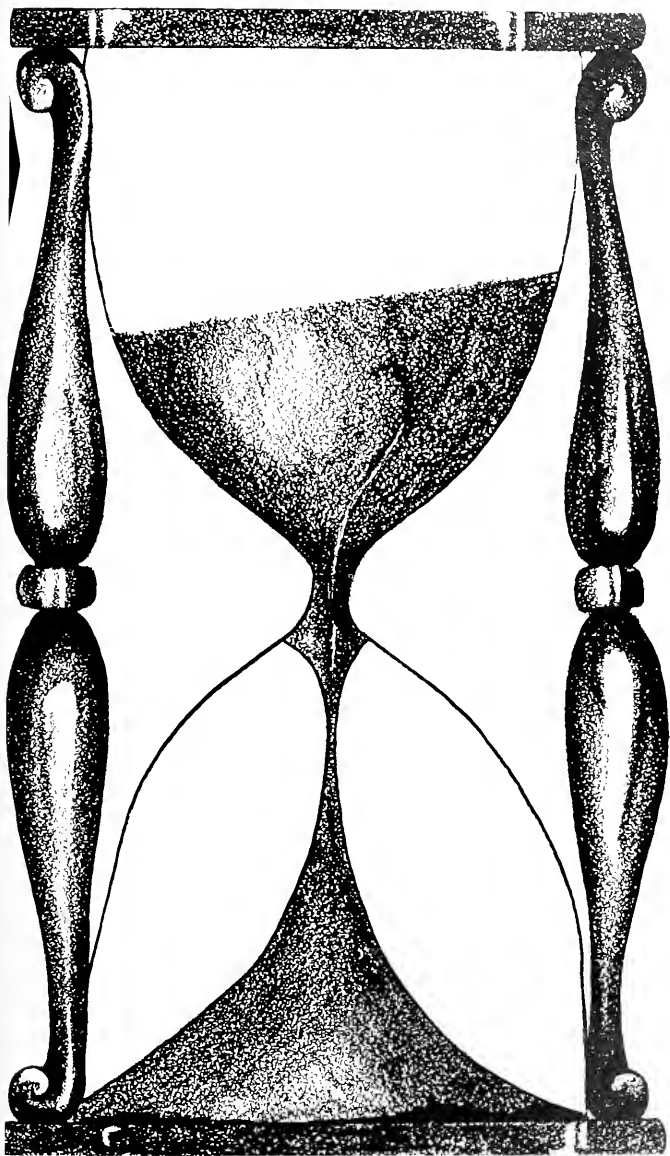

CAL TRANSPLANT CENTER

"His standard of excellence was the ideal to which we all aspired, but seldom attained. The tremendous depth of his intellect combined with indefatigable energy and personal warmth was applied with equal facility and effectiveness to the largest and smallest of human problems without discrimination.

"For us, he is a Renaissance figure in the 20th century. His talents at the bedside of the patients, in the operating room, classroom and research laboratory were unmatched. He was an inspirational leader, and the 'professor.' He is the irreplaceable man."

Bioblend® Teeth make any denture look more natural.

Bone-like enamel. Wrap around translucency. Internally blended color. These are just a few of the esthetic refinements which distinguish Bioblend from all other artificial teeth. The result: Bioblend Teeth are now being used more often for complete dentures than any other teeth in the world. *Any other!*

Available in porcelain or plastic.

Serving MCV for
Fifty Years

1973 saw many institutions previously considered inviolate assailed from many fronts and in some cases found wanting.

Classes began amid a comprehensive inquiry into the conduct of a President as he attempted to secure a second term in office. After an "enemies list" and the President's refusal to cooperate became evident, the popularity of the President began to wane. After achieving one of the largest margins of victory in the 1972 elections, Pres. Nixon has become one of the most suspect of Presidents and there is growing feeling that he has not "kept the faith" with the American people. On the global scene, another Israeli war revealed that SAM 6 could knock down the mighty Phantom, that a one-man missile could knock out the previously highly effective tanks and that the Israeli army with its back to the wall is more than a match for an army several times its size and strength. Violence was not confined to the Middle East as the terrorist bombs were exploded in London and mourning for victims of similar occurrences was common in Belfast. While the U.S. had no men involved in S. Vietnam for the first time in several years, the fighting continued subsequent to Le Duc Tho and Henry Kissinger's attempt to arrange a lasting peace in Paris. In sports, Secretariat showed that brown was swift as well as beautiful as he won the much sought after Triple Crown. Hank Aaron amid threats of racial retaliation made great strides toward the title of "home run" king. The Oakland A's in their usual controversial style again proved their performance and ability superior as they won the World Series for a second time. The Dolphins performed a similar feat as they won the Super Bowl for a second time using an impressive depth of talent to come out on top. Football's most successful running back, O. J. Simpson ran for 2,000+ yard during the last season to establish a new record. Billy Jean King to the delight of many women and the chagrin of many men soundly defeated the aging hustler Bobby Riggs in tennis. Another woman in the news, Martha Mitchell vocally implicated that the President was involved in Watergate and staunchly defended her husband's participation.

RETROSPECT

1973 saw the exposure of financial transactions indicating the Vice President's involvement in bribery. This exposure forced his resignation and the appointment of Gerald Ford as his replacement. Many Americans watched in the early morning hours as a sometimes petulant Princess Anne was beautiful and regal on the day of her marriage to Mark Phillips. P.O.W.'s who had not seen their families since the middle 1960's were reunited in 1973 while others who succumbed to the pressure of torture while imprisoned committed suicide rather than face the consequent courtmartial. Wounded Knee again became the scene of Indian-U.S. government confrontation as Indian radicals instigated the conflict. Two ex-presidents Lyndon Johnson and Harry S. Truman died. Picasso, after a life prolific in paintings and offspring, succumbed. David Ben-Gurion also died at the age of 87 after being involved in the leadership of Israel since its establishment. During the past year black mayors were elected in two of America's major cities, Atlanta and Los Angeles. Skylab astronauts have shown that the length of time man can stay in space can be extended indefinitely. They apparently will get the best chance to scrutinize the most impressive comet for several centuries, Kohoutek. At the year's end Egypt and Israel are sitting at the peace table amid reports of cease-fire violations and fragile hopes for a lasting peace coming out of the conference. Holiday death tolls plunged some families curtailed holiday parties as the energy crisis was pumped into the economy.

1974 X-RAY

Bonnie Glascock, Co-editor

Carson
Cornbrooks,
Co-editor

Nancy Yates, Ad-editor

David Clough, Cartoons and drawings

The editors would like to thank those few people who made this yearbook possible. Our special thanks go to Mrs. Lena Perkins, Dean Franklin Bacon, and Mrs. Sally Broadbudds for their assistance and encouragement. We thank Chris Davis, Peter Van Sickels, Martha Hale, and Leon Lenker for their contributions. Much deserved appreciation goes to Bob DeVaul of Holiday Photo, Inc. for his excellent additions to the photography and to Steve Good of Paragon Yearbooks for his superb advice and layout design.

We apologize for any errors, missing pictures, or unflattering pictures involving one's self image.

I believe this year has taught us one important thing—in a production such as this, the worst sides of a person may come out—possibly those they may not have known existed. So I would like to say I'm sorry to both Carson and to Steve—and thanks. I'M SURE GLAD THIS IS ALL OVER.

Carson and Bonnie would not like to thank Lynn Griffin.
